A factory clearance of the items listed within these pages is being made so that we will be in a better position to handle future orders more diligently and to work closely with the NRA since we are already members and wish to continue to do our part. The items being sold herein are in conformity to NRA rules since we are closing out and discontinuing all the articles listed. We urge any one who has any use for any of the items herein listed to take advantage of this sale now for it shall never again be duplicated, especially since the general increase in price on our entire line shall begin September 1.

All the closeout items are standard, and just as we have sold them previously. On kits for instance we did not eliminate any of the material, but the kit is entirely complete, the same as we have been selling it for its full price. All you need to do is list just what you want on the order blank on page 4 and send in your money for it, for just what it totals (nothing extra, but if the order amounts to less than 50¢ add 15¢ for packing. This is very important!!
