

**At Last! World-Famous "Hard To Get" - CLEVELAND-DESIGNED Models Have Been Revived!
STANDARD 3/4" SCALE "SF" AIRPLANE SERIES KITS NOW "CUSTOM-MADE" IN SMALL QUANTITIES**

Kits Available Only Direct By Mail From Us - No Liquids Or Motor Units Included

Cleveland-Designed "Make-Then-Yourself" models win more prizes, more honors, more compliments than any other line of models in the world! That's why they are the world's most talked-about line of authentic model airplanes. Ask old timers -- they'll tell you!

These revived Cleveland Kits are complete except for cement, dopes and rubberbands. They are for modelers who like to assemble 'em completely themselves and are being manufactured in VERY LIMITED quantities. Drawings used in these kits are taken from the private historical record files of "Cleveland Model" and most of them have actually been printed 10 to 25 years ago. This is the reason for the scarcity of kits - they are real "collectors items" for scale model fans.

Upon their sales will depend whether or not, we continue to make these or any additional Ol' Timer "Custom kits". YOU MAY NEVER AGAIN BE ABLE TO GET THEM! Order your favorites today while they last

These are the same World Famous Cleveland Designed "SF" Master Kits you have heard so much about, made up the same as they were in the past. Kits include: authentic full size well detailed drawings, printed out (not diecut) parts on balsawood, stripwood, blocks, tissue, wire, wheels, insignia, etc., etc.

SF-2 Travel Air Mystery 21-3/4"	\$ 4.75

1" SCALE GAS JOBS

The following model kits are the ultimate in prefabricated, built-up type construction. Leading and trailing edges are shaped and notched. Bulkheads and ribs are printed and diecut from sheet balsawood. Wire landing gears are preformed. Scale size wheels. Tails are diecut sheetwood. Decals, stripwood, thread, tissue, etc. and full size detailed drawings are also included. Both models are designed to 1" scale for either class B or C motors. For models that are a feast for sore eyes, build either one or both -- you won't be sorry!

SGP-1 Great Lakes Biplane Trainer 27"	with cut-out nose blocks. Only \$5.95
SGP-60 Boeing P-26A Low wing fighter 28"	with large turned balsa motor cowl and routed out and hand sawed wheel shoes. Only \$6.95
